| **The Functional Fire Company**  
Chief Scott Thompson  
The Colony Fire Department  
This program is based on the book The Functional Fire Company Positioning Small Groups for Success and Survival. Topics discussed include The Colony Project, chosen cultures, effective supervision and courageous leadership, training, and risk management. The focus is on senior members to fire chiefs, and action steps that each rank can take to position the fire company for success and survival.  
Scott Thompson began his fire service career in 1981 as a volunteer. He started his paid career in 1986 with the Plano, Texas Fire Department. Over the last thirty plus years, he has worked in administration, training, and operations for some of the fastest growing and most progressive fire departments in Texas. Thompson currently serves as the Chief of Department in The Colony, Texas. Thompson has been a hands on training and classroom presenter at The Fire Department Instructors Conference since 2002 and has articles published on a variety of fire service topics. He has a bachelor's degree and is a certified public manager. | **Extrication Battle Plan**  
Isaac Frazier  
Wichita Fire Department  
Extrication Battle Plan is a “street smart” extrication course that is beneficial for students beginner to advanced. This course is designed to increase the attendees speed and efficiency on the “real world” extrication scene. This class truly looks at the “why’s” of each operation. Mental aspects of extrication, plan A operations, time, speed, efficiency, cut-around points, high strength steels, under-rides are just a start to this course. This class is tailored for limited manpower to urban rescue co’s. It is presented to promote motivation, pride and discussion amongst the attendees.  
Isaac Frazier is with Wichita Fire assigned to Firehouse 2 and owner of Tactical Advantage Training. Prior to Wichita he spent 15 years with St. Johns County Florida assigned to Heavy Rescue “Squad 4” as a Special Ops Captain on the deadliest stretch of roadway in the nation. Frazier is a FDIC lead HOT instructor, North American Vehicle Rescue Association Assessor, FDIC lecturer, Fire Engineering Contributor, Fire Officer II, WFD Rescue Team Member, PLUSAR Tech, Diver, and Hazmat Tech. |
